(PLEASE CHECK ONE OR TWO)

Brace Obedience Competitive _____

Rally Pairs-Novice Level Competitive _____

Section 5. Brace Class. The Brace class will be for two dogs of the same breed or two dogs listed with AKC Canine Partners of similar height at the withers that are eligible under these regulations and capable of performing the Novice exercises. The dogs need not be owned by the same person but will be handled by one handler. Dogs may be shown unattached or coupled (the coupling device will not be less than 6 inches in overall length). Whichever method is used will be continued throughout all exercises. A separate official entry form will be completed in full for each dog entered. Exercises, performances and judging will

be as in the Novice class. The brace should work in unison at all times. Either or both dogs in a brace may be entered in another class or classes.

Section 1. Rally Pairs Class. Rally Pairs class consists of competition by one handler working two dogs at one time through a rally course at a level selected and offered by the event-giving club. Scores will be based on a possible 200 points, with ties being broken by time. Class levels that can be offered by the event-giving club will be Rally Novice, Rally Advanced and/or Rally Excellent, excluding jumps. Clubs may offer one or all levels at events. A club may offer non-regular Rally Excellent without having to offer any other level as a non-regular class.

Scoring. All stations will be counted with a point value. The maximum point value that can be deducted at any one station will be 10 points per dog (20 total points). There will not be any NQs awarded for a performance. It is possible for a team to receive a negative score. All other rally rules and regulations will apply for each class level offered as a non-regular class.
